Call for Applications – July 2014

Innovation Consultant
EIT ICT Labs Germany GmbH

The European Institute of Innovation and Technology (EIT) aims at enhancing innovation in Europe. EIT ICT Labs is one of the first Knowledge and Innovation Communities (KIC) set up by the EIT as an initiative of the European Union. It brings together widely known European IT companies and research institutes. EIT ICT Labs Germany GmbH is the legal entity responsible for conducting and coordinating the operations of EIT ICT Labs in Germany.

We are currently looking for a full-time Innovation Consultant to join our team in Berlin as soon as possible.

Tasks

- Support of teams with international customers in management consulting, innovation and technology management; in the future supervision of such projects
- Support in concept development, planning and implementation of international innovation and start-up contests
- Autonomous management of subprojects and complete work packages
- Autonomous development and application of instruments fostering and analyzing innovations, e.g. scenario analyses, market research, trend insights, scouting and corporate foresight
- Development and implementation of creative new workshop formats, matching R&D and business units of large-scale enterprises
- Exploration and economic analysis of ideas about prospective products and services

Your profile

- Drive for innovation
- Professional experience in innovation and technology management and/or project and event management in an international environment, preferably in the context of multinationals
- Excellent degree (B.Sc., M.Sc., diploma or similar), ideally in the field of innovation management, technology management, entrepreneurship or any ICT-related field
- Affinity to social and professional networking, ideally good connections to the start-up community (on international level or in Berlin)
- International experience, intercultural awareness, cross-cultural competence
- Poise in interacting with clients, excellent communication skills, empathy and capacity for teamwork
- Strategic way of thinking, methodological knowledge and solid technical understanding
- Structured work style
- Excellent command of English and German, additional language skills would be a plus
- Excellent knowledge of MS Office, especially PowerPoint
- Exploration and economic analysis of ideas about prospective products and services

What we can offer

- Challenging international projects with renowned clients and in a start-up environment
- Diversified, autonomous working style with a scope for creativity
- Close collaboration with experienced project and innovation managers and communication experts
- Constant exchange of experiences with skilled colleagues
- Attractive salary and flat hierarchy
- Modern workplace in the Telefunken-Hochhaus at Ernst-Reuter-Platz, Berlin
- Interact with leading European and German companies, research organized and universities in the field of ICT
